- The role of architecture maturity models in developing an enterprise architecture
- The purpose of the Architecture Skills Framework and how to apply it within an organization
- TOGAF reference models

### Audience

- Individuals who require a deeper understanding of TOGAF 9, e.g., System Integrators, Operational, Business and IT Developers, CIO's and IT Managers, Program and Project Leaders, IT Specialists, Architects
- Professionals who are working in an organization where TOGAF 9 has been adopted and who need to participate in architecture projects and initiatives
- Architects who will be responsible for developing architecture artifacts
- Architects who wish to introduce TOGAF 9 into an architecture practice

### Prerequisites

- There are no formal prerequisites. However, it is recommended that participants have experience in the IT domain. Note, to be certified on TOGAF 9 Level 2, it is required to have passed the TOGAF Level 1 exam.

### Course Description

The TOGAF 9 Level 2 Certified course is a 3-day, interactive, classroom-based learning experience. The course focuses on the practical application of the TOGAF™ 9 framework, building on the foundational knowledge and comprehension of Level 1, using practical scenarios to enforce concepts. The purpose of certification for TOGAF 9 Level 2, known as TOGAF 9 Practioner, is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation, the candidate is able to analyze and apply this knowledge. The learning objectives at this level focus on application and analysis, in addition to knowledge and comprehension.

### Duration

3 Days

### About the Certification Exam

- The exam is in open-book format, and includes 8 complex multiple-choice scenario-based questions.
- The pass score is 60% (5 out of 8 questions). The exam lasts for 90 minutes and can be taken onsite (online) or through Prometric test centers.
